KILLING PLANT HERE IS ASSURED

F. W. McConnell Says Arrangements Are Made to Finance Project.

Finance Project.

El Paso's first killing plant and stockyards is a certainty, F. W. McConnell says. Mr. McConnell, who has been associated with John T. Cameron in the promotion of the new killing plant, returned Sunday night from Ft. Worth where he has been with Mr. Cameron arranging for the financing of the new El Paso project.

"While all of the details of the plaint have not yet been arranged for." Mr. McConnell says, "the project is a sure go and the plant will be in operation in El Paso within a year. The construction of this killing plant will mean the eventual establishment of others until every large packing interest in the country wiß have plants in El Paso to handle the Mexican cattle which come through El Paso as the main port of the republic.

"I was a bit doubtful about the killing end of the project until I went to Fort Worth with Mr. Cameron to arrange for the construction of the plant. There I talked with the packing men and they all agreed that the demand for lean meats, saited, canned and in tierces was never greater than it is at the present time, both for the domestic and expert trade. These lean meats are used for making canned meats, saited, canned and in tierces was never greater than it is at the present time, both for the domestic and expert trade. These lean meats are used for making canned meats, saited, canned and in the lean cattle from Mexico which arrive in El Paso en route to the northern pastures is an ideal meat for this class of product. Once our plant is in operation it will be impossible to meet this demand and the other packing companies will follow to the El Paso field to take advantage of this hither-to undeveloped resource."

J. T. Cameron will return Tuesday from Fort Worth and he is expected to make a definite announcement that the crrangoments for the killing plant have been completed. Preliminary contracts have already been let and the actual construction work will begin soon, Mr. McConnell says.
